

Chainsaw Glove Forester

EN 388:2016
+ A1:2018

EN ISO 11393-4:
2019

Class 0 - 16 m/s
Design A - Type 2

Chrome-free tanning

Description	Chainsaw glove made with chrome-free tanned, water-repellent goatskin leather Protects the back of the left hand
Material	Palm: chrome-free tanned goatskin, reinforced Cut protection material: Engtex Avertic ProTM Back of hand made of elastic spandex for optimum mobility and elasticity
Application areas	Forestry, landscape management
Product benefits	Protection of the affected left hand up to a chain speed of 16 m/sec. Elastic knitted cuff to prevent sawdust or dirt from entering the glove Signal colors for better visibility in the forest In contrast to conventional cut protection inserts, Engtex Avertic ProTM is characterized by better mobility, lower weight and increased breathability. The perfect fit and excellent dexterity make users less afraid of using chainsaw gloves.
Single packaging	headercard
Standards	CAT III, EN 388:2016+A1:2018, EN ISO 11393-4:2019
